

Phase 3 – Get ready for production

Step 1 – Test workflows in DMS Import TFE

DMS Import

Onboarding mini guide for System-to-System users

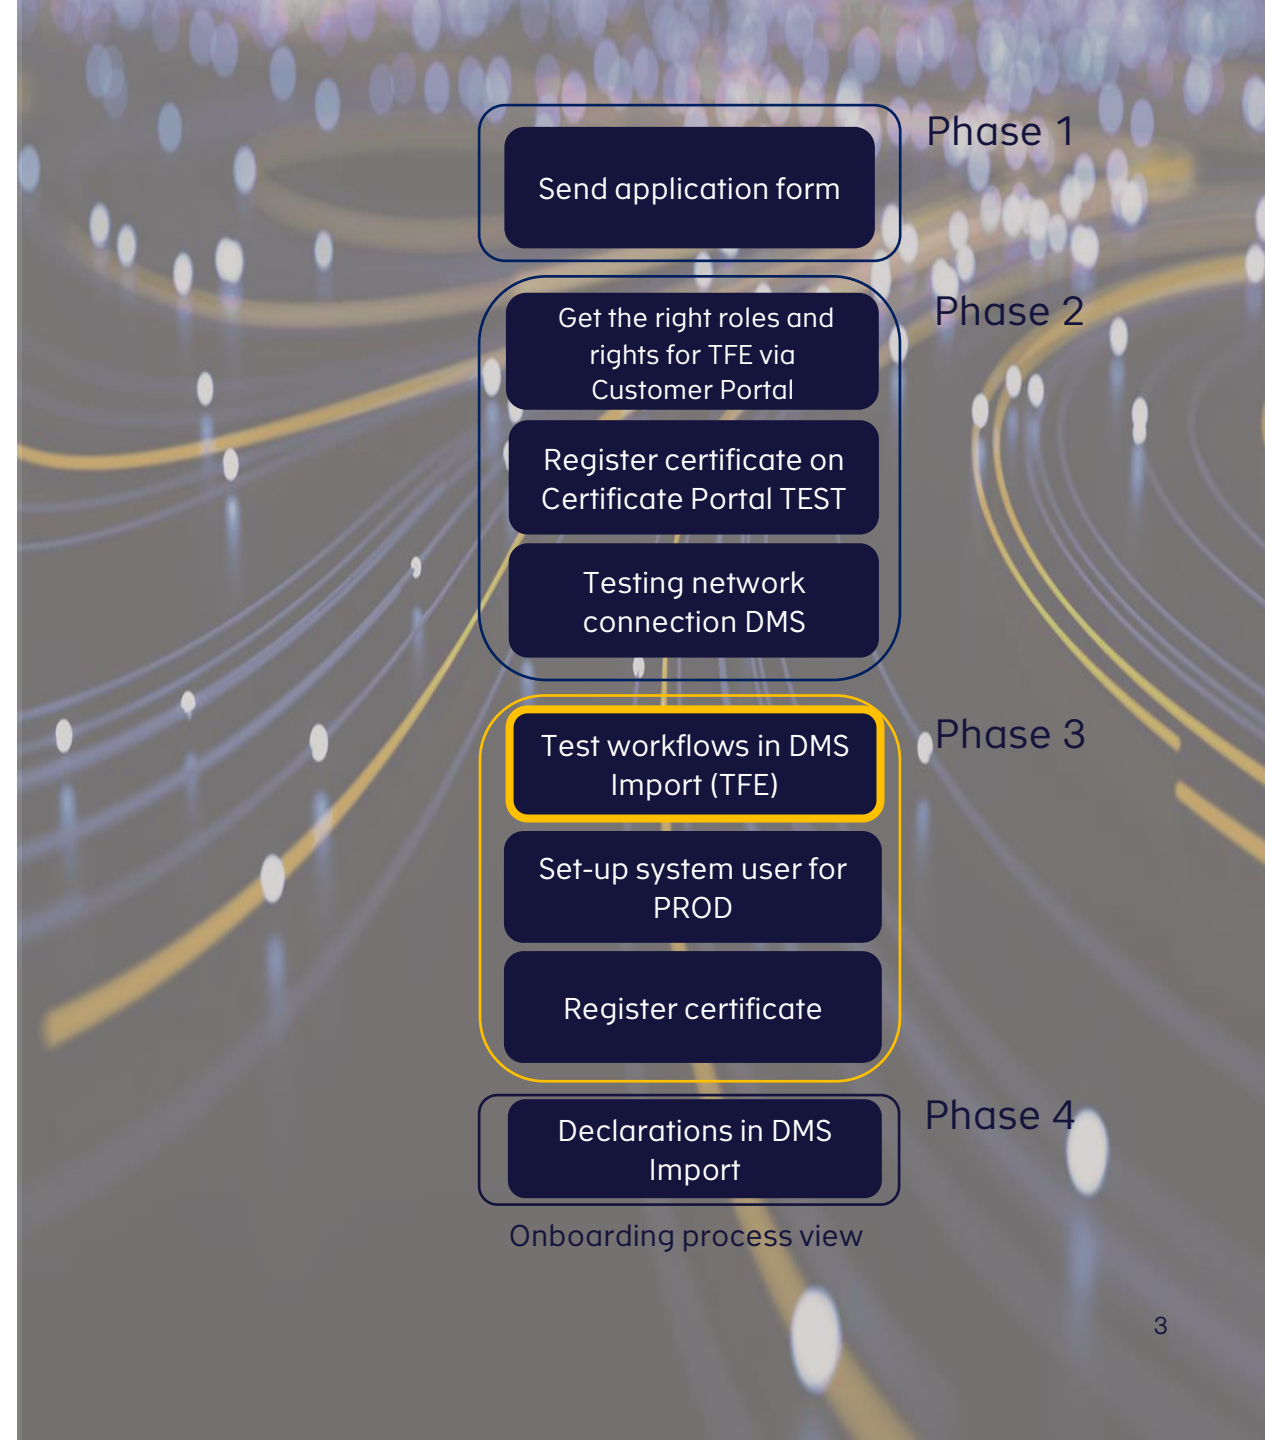

Step 1

Test workflows in DMS Import TFE (test environment)

If you have coordinated test activities with your software vendor, you should now have obtained the appropriate roles and permissions in TastSelv Erhverv. You have registered the certificate on the Certificate Portal for AS4 TFE and tested your network connection with DMS Import via the AS4 Gateway.

Coordinate with the software vendor or team in general to agree upon your role in getting ready for production.

You can skip this step if you do not plan to test on TFE.
